## ABOUT ME

A highly motivated and results-oriented student pursuing a Diploma in Engineering on Computer Science. Possesses strong analytical and problem-solving skills, with a passion for technology and its applications. Eager to leverage academic knowledge and practical skills in a challenging and fast-paced environment.

## EXPERIENCE

### Graphics Designer

2022-2023

#### Amin Art Publicity

As a Part-Time Graphic Designer at Amin Art for 1 year I designed creative graphic elements for various marketing materials, including banners, brochures, social media graphics, and website banners. I collaborated closely with clients to understand their design needs and preferences, while utilizing design software like Adobe Photoshop and Illustrator to produce high-quality visuals that ensured brand consistency across all marketing materials.

### Mentoring

I further leveraged my front end development knowledge by mentoring classmates and junior students. In this role, I provided guidance and support, fostering a collaborative learning environment where I shared my expertise in graphics design and web development concepts. This experience not only benefitted my peers but also solidified my own understanding of these subjects.
